

STATEMENT OF PURPOSE

RS23618

This bill is proposed to remove the requirements for the Idaho State Tax Commission to list donations to trust accounts on a conspicuous portion of the primary individual tax form. In other words, this bill will allow flexibility for the Tax Commission to consolidate forms and move sections of forms within an individual tax return. It also deletes the Idaho ag in the classroom account and the drug and driving while under the influence enforcement donation fund because they no longer meet the requirements of §63-3067C, Idaho Code. This bill also removes the code references to §63-3067B, Idaho Code, since that section is being repealed.

FISCAL NOTE

This bill will have no negative fiscal impact to the general fund.
